**Growth
Mindset**

POWERFUL Instruction

Do you know what a
Growth Mindset is?

- the belief that intelligence and ability aren't fixed
- with effort all people can get better at things (sports, school, etc.)

We know that students who believe in a Growth Mindset can achieve far more than those who don't. Students need to believe they can improve and learn. Please show this video to your students and talk about the importance of believing in themselves and the possibility that All students can grow. The video is great 😊
