Re: Discard of 2006 Ford Taurus and 1975 International Wrecker

Doug,

I would like to recommend to the South Lewis Board of Education that we discard both of these vehicles.

The 2006 Ford Taurus is showing signs of rust through. The floor boards in the front and the back seats are almost ready to fall through. The car is currently being used for short runs by staff only. It currently has 165,000 miles.

The 1975 International Loadstar Wrecker has not been used in approximately 3 years. With the use of the Ford pickup with the sander on it or another bus we have been able to extract any bus that has become stuck.

Please feel free to contact me with any questions you may have.

Thank You

Michael Hanno
